## DOMES HOCKEY

### INSTRUCTIONS FOR DOME REPLACEMENT

- 1.) Remove the damaged dome on the existing Dome Hockey game by removing the four nuts and bolts from the two hinges. Leave the hinges on the cabinet.
- 2.) Line up the new dome over the hinges. See the below picture.

Note that there are suppose to be extra hinge bolt holes in the lip of the replacement dome.

- 3.) Place the two universal mounting plates over the lip of the dome and using the longer replacement bolts, and nuts that came with the game, secure the dome to the hinges on the cabinet.
- 4.) The mounting of the dome should now look like the below picture.
